"Beautiful Noise Live!"

Making the transition from the editing suite back to the recording studio to complete post production on our film has been a real Smile because - after all is said and done - it's a modern day Musical! Now that we've locked the movie as far as the Final Cut, it's all hands on deck to fine tune and mix all the great songs that propel the Story and that literally transport the movie to another level. I'm really proud of what's been achieved so far and I know that the next couple weeks will be among the most joyous of the entire process. The singers, songwriters, musicians and music producers working with me on the Soundtrack are all amazing. I can't wait to release the Album this Spring and am really looking forward to everyone's reaction to the sights and sounds of "Beautiful Noise" when the film is screened around the USA this year.

To kick things off, the first opportunity to hear the songs from the film happens Friday, April 1st at Sarasota's Riverview Performing Arts Center. That's when the very first "Beautiful Noise Live!" Concert event debuts featuring some of our Cast members and songwriters from the movie. It's going to be an awesome show featuring co-stars Danielle White, Chris McCarty and Jay White as well as BN songwriter Dean Johanesen performing songs from the film in the first half of the show. After intermission, Jay brings his world famous Neil Diamond show to the Riverview stage. Proceeds from the concert will benefit select Riverview High School programs and also help fund our international film festival marketing. Check out all the details here on our website and join us for a sneak preview of all things "Beautiful Noise". It's a concert event not to be missed - and one we'll be taking around the country!
